

EXTREME PRO

NP-ProBTD Speed Oven

The ExtremePro NP-ProBTD Speed Oven is designed for busy commercial kitchens that demand speed, consistency, and versatility. Combining hot air impingement, convection, and microwave technology, this unit delivers delicious results in a fraction of the time. Built tough with stainless steel and advanced controls, it's the perfect choice for restaurants, cafés, and foodservice operators looking to boost efficiency without compromising quality.

Fast Cooking Performance

Combines hot air impingement and microwave for rapid results.

Moisture Retention

High efficiency heating cooks evenly while keeping food juicy.

Flexible Menu Handling

Stores up to 1024 recipes for quick and consistent operation.

Adaptable to Any Food

Adjustable settings handle frozen, chilled, or fresh items with ease.

User-Friendly Operation

5-inch touch screen makes cooking simple and intuitive.

Energy Efficient

Smart-design reduces consumption while maintaining high output.
