ICE MAKER

SN-80P

Maximum Value Output
36 kg/24h

Storage: **15** kg

Cube 22mm³

The SN-80P is a compact, high-hardness ice maker that produces cube ice, built with a durable AISI304 stainless-steel exterior and an easy-to-reach ON/OFF switch. It features a specialised built-in spray-type evaporator to improve ice clarity and hardness, an air-cooled system, and R290 eco-friendly refrigerant. Designed for hygiene and reliability, it includes an

automatic cleaning system, automatic fault alerts, food-grade materials with international certification, and internal LED lighting.

For best-tasting ice and a longer machine lifespan, we recommend pairing it with an FHE water filter and replacing the filter cartridge regularly.

Compact Under-Bench Design

Space-saving footprint fits under standard benches—ideal for bars, cafés, and compact kitchens.

Smart Operation System

Simple ON/OFF controls with automatic fault alerts, plus an internal drain pump for easier installation.

Eco-Friendly Refrigeration

R290 refrigerant delivers efficient cooling with lower environmental impact.
