

TDVB SERIES VOLCANO SUPERMARKET DISPLAYS

TDVB80-CA-125 | TDVB80-CA-187 | TDVB80-CA-250

01. Premium Italian Build

Designed and manufactured in Italy with European-quality components.

02. Glass Door Multideck

Multi-level shelving with hinged glass doors.

03. Climate Class 4 Rated

Performs at 30°C ambient conditions and GEMS compliant.

04. Integrated Condensing Unit

Built-in system with automatic water evaporation.

The Tecnodom TDVB Volcano series is a premium glass door multideck supermarket display, engineered for supermarkets, convenience stores, and high-traffic retail spaces requiring efficient refrigeration with strong visual impact. Featuring multi-level shelving, ventilated cooling, and an integrated condensing unit, it delivers reliable temperature control while maintaining consistent airflow across every shelf level.

Hinged glass doors improve energy efficiency and temperature stability, while the multideck format maximises product visibility and stocking flexibility for chilled food and beverage displays.
